

2015 INDIANA COMPANIES TO WATCH

Honoring Business Excellence

The Indiana Companies to Watch program celebrates second-stage businesses and the positive impact they have on their communities and the state.

These privately-owned firms employ from six to 150 full-time equivalent workers

and generate annual revenue of \$750,000 to \$100 million. They are honored for past and projected growth, innovative products or business practices, special use of technology and philanthropic work in their communities. Indiana Companies to Watch is

presented by the Office of Small Business and Entrepreneurship and its Indiana Small Business Development Center, the Indiana Economic Development Corporation and endorsed by the Edward Lowe Foundation.
